NOTE ABOUT FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, among other things, statements regarding plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements, which are other than statements of historical facts. Forward-looking statements may appear throughout this report, including without limitation, in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Forward-looking statements generally can be identified by words such as “anticipates,” “believes,” “estimates,” “expects,” “intends,” “plans,” “predicts,” “projects,” “will be,” “will continue,” “will likely result,” and similar expressions. These forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which could cause our actual results to differ materially from those reflected in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Quarterly Report on Form 10-Q and those discussed in other documents we file with the Securities and Exchange Commission (“SEC”). Important factors that in our view could cause material adverse affects on our financial condition and results of operations include, but are not limited to, the risks and uncertainties related to our future operational and financial results, competitive factors, the timing of the openings of other clubs, the availability of acceptable financing to fund corporate expansion efforts, our dependence on key personnel, the ability to manage operations and the future operational strength of management, and the laws governing the operation of adult entertainment businesses. We undertake no obligation to revise or publicly release the results of any revision to any forward-looking statements, except as required by law. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

As used herein, the “Company,” “we,” “our,” and similar terms include RCI Hospitality Holdings, Inc. (Formerly Rick’s Cabaret International, Inc.) and its subsidiaries, unless the context indicates otherwise.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2014
(UNAUDITED)

1. BASIS OF PRESENTATION AND NAME CHANGE

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q of Regulation S-X. They do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, except as disclosed herein, there has been no material change in the information disclosed in the notes to the consolidated financial statements for the year ended September 30, 2013 included in the Company's Annual Report on Form 10-K, as filed with the Securities and Exchange Commission. The interim unaudited financial statements should be read in conjunction with those financial statements included in the Form 10-K. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the nine months ended June 30, 2014 are not necessarily indicative of the results that may be expected for the year ending September 30, 2014.

At the Company's Annual Meeting of Stockholders on August 6, 2014, stockholders approved changing its name to RCI Hospitality Holdings, Inc. ("RCIH").

2. RECENT ACCOUNTING STANDARDS AND PRONOUNCEMENTS

The FASB has issued Accounting Standards Update (ASU) No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. The amendments in the ASU change the criteria for reporting discontinued operations while enhancing disclosures in this area. It also addresses sources of confusion and inconsistent application related to financial reporting of discontinued operations guidance in U.S. GAAP. Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. The new guidance also requires disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify for discontinued operations reporting. This disclosure will provide users with information about the ongoing trends in a reporting organization's results from continuing operations. The amendments in the ASU are effective in the first quarter of 2015 for public organizations with calendar year ends. Early adoption is permitted. The Company has adopted this guidance beginning with the quarter ended March 31, 2014.

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. The guidance in this update supersedes the revenue recognition requirements in Topic 605, *Revenue Recognition*. Under the new guidance, an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments in ASU No. 2014-09 are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. We are currently evaluating the impact of adopting the guidance on our financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

Following are certain remarkable accounting principles and disclosures.

Marketable Securities

Marketable securities at June 30, 2014 consist of bond funds. ASC 320, *Investments in Debt and Equity Securities*, requires certain investments be recorded at fair value or amortized cost. The appropriate classification of the investments in marketable equity is determined at the time of purchase and re-evaluated at each balance sheet date. As of June 30, 2014, the Company's marketable securities were classified as available-for-sale, which are carried at fair value, with unrealized gains and losses reported as other comprehensive income within the stockholders' equity section of the accompanying consolidated balance sheets. The cost of marketable securities sold is determined on a specific identification basis. The fair value of marketable securities is based on quoted market prices based on Level 1 inputs — quoted prices (unadjusted) for identical assets or liabilities in active markets.

There have been no realized gains or losses related to marketable securities for the nine month periods ended June 30, 2014 or 2013. Marketable securities held at June 30, 2014 have a cost basis of approximately \$505,000.

Fair Value Accounting

ASC 820 clarifies the definition of fair value, describes methods used to appropriately measure fair value, and expands fair value disclosure requirements, but does not change existing guidance as to whether or not an instrument is carried at fair value.

US GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

- Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 – Include other inputs that are directly or indirectly observable in the marketplace.
- Level 3 – Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The Company classifies its marketable securities as available-for-sale, which are reported at fair value. Unrealized gains and losses, net of the related income tax effect, if any, on available-for-sale securities are included in comprehensive income and are reported as accumulated other comprehensive income in stockholders' equity. Realized gains and losses from securities classified as available for-sale are included in income. The Company measures the fair value of its marketable securities based on quoted prices for identical securities in active markets, or Level 1 inputs. As of June 30, 2014, available-for-sale securities consisted of the following:

(in thousands) Available for Sale	Cost Basis	Gross Unrealized Gains	Fair Value
Tax-Advantaged Bond Fund	\$ 505	\$ 81	\$ 586

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

3. SIGNIFICANT ACCOUNTING POLICIES - continued

In accordance with ASC Topic 320, *Investments — Debt and Equity Securities*, the Company reviews its marketable securities to determine whether a decline in fair value of a security below the cost basis is other than temporary. Should the decline be considered other than temporary, the Company writes down the cost basis of the security and include the loss in current earnings as opposed to an unrealized loss in comprehensive income. No losses for other than temporary impairments in the Company's marketable securities portfolio were recognized during the quarter ended June 30, 2014.

Financial assets and liabilities measured at fair value on a recurring basis are summarized below:

(in thousands) June 30, 2014	Carrying Amount	Level 1	Level 2	Level 3
Marketable securities	\$ 586	\$ 586	\$ -	\$ -

(in thousands) September 30, 2013	Carrying Amount	Level 1	Level 2	Level 3
Marketable securities	\$ 555	\$ 555	\$ -	\$ -

Discontinued Operations

In prior consolidated financial statements, the Company has disclosed certain discontinued operations – nightclubs that the Company has closed or sold. Those discontinued operations have now become immaterial; therefore, the Company has eliminated the disclosure in the accompanying consolidated financial statements.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

4. STOCK OPTIONS AND STOCK-BASED EMPLOYEE COMPENSATION

Employee and Director Stock Option Plans

In 1995, the Company adopted the 1995 Stock Option Plan (the "1995 Plan") for employees and directors. In August 1999, the Company adopted the 1999 Stock Option Plan (the "1999 Plan") and in 2010, the Company's Board of Directors approved the 2010 Stock Option Plan (the "2010 Plan") (collectively, "the Plans"). The 2010 Plan was approved by the shareholders of the Company at the 2011 Annual Meeting of Shareholders. The options granted under the Plans may be either incentive stock options, or non-qualified options. The Plans are administered by the Board of Directors or by a compensation committee of the Board of Directors. The Board of Directors has the exclusive power to select individuals to receive grants, to establish the terms of the options granted to each participant, provided that all options granted shall be granted at an exercise price equal to at least 85% of the fair market value of the common stock covered by the option on the grant date and to make all determinations necessary or advisable under the Plans.

The compensation costs recognized for the three months ended June 30, 2014 and 2013 were \$2,922 and \$281,745, respectively, and were \$156,449 and \$845,325 for the nine months then ended, respectively. There were 269,665 and 369,665 stock option exercises aggregating \$2.3 million and \$3.1 million, respectively, during the three and nine months ended June 30, 2014. There were no stock option exercises for the three and nine months ended June 30, 2013. There were no stock option grants for the three and nine months ended June 30, 2014.

6. LONG-TERM DEBT

On October 15, 2013, the Company sold to certain investors (i) 9% Convertible Debentures with an aggregate principal amount of \$4,525,000 (the "Debentures"), under the terms and conditions set forth in the Debentures, and (ii) warrants to purchase a total of 72,400 shares of the Company's common stock (the "Warrants"), under the terms and conditions set forth in the Warrants. Each of the Debentures has a term of three years, is convertible into shares of our common stock at a conversion price of \$12.50 per share (subject to adjustment), and has an annual interest rate of 9%, with one initial payment of interest only due April 15, 2014. Thereafter, the principal amount is payable in 10 equal quarterly principal payments, which amounts to a total of \$452,500, plus accrued and unpaid interest. Six months after the issue date of the Debentures, we have the right to redeem the Debentures if the Company's common stock has a closing price of \$16.25 (subject to adjustment) for 20 consecutive trading days. The Warrants have an exercise price of \$12.50 per share (subject to adjustment) and expire on October 15, 2016. In the event there is an effective registration statement registering the shares of common stock underlying the Warrants, we have the right to require exercise of the Warrants if our common stock has a closing price of \$16.25 (subject to adjustment).

6. LONG-TERM DEBT - continued

for 20 consecutive trading days. The Company sold the Debentures and Warrants to the investors in a private transaction and received consideration of \$4,525,000. An adviser to the Company received compensation in the amount of \$271,500 in connection with advising the Company regarding the sale of the Debentures and Warrants.

The fair value of the warrants was estimated to be \$105,318 in accordance with FASB ASC 820, *Fair Value Measurements*, using a Black-Scholes option-pricing model using the following weighted average assumptions:

Volatility	28.4%
Expected life	1.5 years
Expected dividend yield	-
Risk free rate	.33%

The cost of the warrants has been recognized as a discount on the related debt and was amortized over the life of the debt.

In October 2013 the Company borrowed \$ 2.5 million from an individual. The note is collateralized by a second lien on the Company's Miami nightclub, bears interest at 13% and interest only is payable monthly until the principal matures in 36 months.

In December 2013 the Company purchased an aircraft for \$4.3 million which was partially financed by a \$3.6 million note to a bank. The note is payable \$40,654 monthly, including interest at 7.45% until February 2017 when the entire principal balance becomes due.

In May 2014, the Company acquired certain real estate in Houston, Texas for the purpose of constructing a corporate headquarters building. The cost of the land was \$707,000 and was partially financed with a \$531,000 note, payable \$18,151 per quarter until May 2019, including interest at 6.5%.

In October 2013, the Company acquired certain real estate in Beaumont, Texas. The cost of the property was \$850,000 and was partially financed with a \$700,000 note, payable \$10,565 per month until October 2020. This property is now under contract for sale and is a portion of the assets held for sale in the accompanying consolidated balance sheet.

7. COMMON STOCK

During the nine months ended June 30, 2013, the Company purchased and retired 176,255 common treasury shares. The cost of these shares was \$1,478,482. These shares have been retired.

During the nine months ended June 30, 2014, the Company converted debt principal and interest valued at \$2.1 million into 211,443 common shares.

8. EARNINGS PER SHARE ("EPS")

The Company computes earnings per share in accordance with FASB ASC 260, *Earnings Per Share*. ASC 260 provides for the calculation of basic and diluted earnings per share. Basic earnings per share includes no dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of the Company.

Potential common stock shares consist of shares that may arise from outstanding dilutive common stock warrants and options (the number of which is computed using the "treasury stock method") and from outstanding convertible debentures (the number of which is computed using the "if converted method").

Diluted EPS considers the potential dilution that could occur if the Company's outstanding common stock options, warrants and convertible debentures were converted into common stock that then shared in the Company's earnings (as adjusted for interest expense that would no longer occur if the debentures were converted).

9. ACQUISITIONS

Quarter Ended December 31, 2013

In October 2013, the Company purchased 49 percent of a corporation that operates the Dallas club "PT's Platinum" and also acquired the building and personal property. Total cost of the transaction was \$500,000. This subsidiary is being consolidated in the Company's consolidated financial statements, effective as of the date of the purchase.

2013

In connection with the acquisition of the Foster Clubs, as explained in Note M in the Company's Form 10-K for the year ended September 30, 2012, the Company's wholly owned subsidiary, Jaguars Holdings, Inc. ("JHI"), entered into a Commercial Contract (the "Real Estate Agreement"), which agreement provided for JHI to purchase the real estate where the Foster Clubs are located. The transactions contemplated by the Real Estate Agreement closed on October 16, 2012. The purchase price of the real estate was \$10.1 million (discounted to \$9.6 million as explained below) and was paid with \$350,000 in cash, \$9.1 million in mortgage notes, including the assumption of approximately \$4.2 million in notes, and an agreement to make a one-time payment of \$650,000 in twelve years that bears no interest. The note bears interest at the rate of 9.5%, is payable in 143 equal monthly installments and is secured by the real estate properties. The Company has recorded a debt discount of \$431,252 related to the one-time payment of \$650,000. The Company reduced previously recognized goodwill because the purchase of the Foster Clubs operations and the real estate were considered to be one purchase transaction with multiple closings and were included in the same purchase agreement.

On March 4, 2013, the Company completed the acquisition of a second adult business in midtown Manhattan. The Company then opened a new gentlemen's club at the 61 West 37th Street location, just east of Sixth Avenue. The Company paid \$3 million for the business, with \$1.5 million paid in cash and the remaining \$1.5 million in six percent promissory notes convertible into shares of Company common stock. The notes call for monthly payments of \$16,653, including principal and interest, and mature in 120 months. At the option of the noteholders, the principal amount of the notes and the accrued but unpaid interest thereon may be converted into shares of the Company's common stock at \$10.25 per share. The notes are redeemable by the Company at any time if the closing price of its common stock for 20 consecutive trading days is at least \$13.47 per share.

9. ACQUISITIONS - continued

The Company incurred approximately \$34,000 in legal costs associated with the acquisition, which are included in legal and professional expense in the accompanying consolidated statement of income.

Goodwill in the acquisition represents the offset to the deferred tax liability recorded as a result of the difference in the basis of the net assets for tax and financial purposes. The goodwill is not deductible for income tax purposes. The results of operations of this company are included in the Company's consolidated results of operations since March 5, 2012. This acquisition was made to further the Company's growth objective of acquiring nightclubs that will quickly contribute to the Company's earnings per share. Proforma results of operations have not been provided, as the amounts were not deemed material to the consolidated financial statements.

On May 29, 2013, our wholly owned subsidiary, RCI Entertainment (Delamo), Inc., completed the acquisition of the remaining 50 % of 1957 Delamo, LLC, which owns a new adult cabaret in Los Angeles County, California. We issued 100,000 restricted shares of our common stock to an individual in consideration for outstanding membership interests of 1957 Delamo, LLC. These shares were valued at \$863,000. The Company had previously paid \$600,000 in cash for the initial 50 % investment.

10. INCOME TAXES

Income tax expense on continuing operations for the periods presented differs from the "expected" federal income tax expense computed by applying the U.S. federal statutory rate of 34% to earnings before income taxes for the three months ended December 31, as a result of the following:

Total income tax expense	<u>\$ 203</u>	<u>\$ 1,343</u>	<u>\$ 3,448</u>	<u>\$ 4,533</u>

Included in the Company's deferred tax liabilities at June 30, 2014 is approximately \$17.2 million representing the tax effect of indefinite lived intangible assets from club acquisitions which are not deductible for tax purposes. These deferred tax liabilities will remain in the Company's balance sheet until the related clubs are sold.

11. COMMITMENTS AND CONTINGENCIES

Legal Matters

Beginning January 1, 2008, the Company's Texas clubs became subject to a new state law requiring each club to collect and pay a \$5 surcharge for every club visitor. A lawsuit was filed by the Texas Entertainment Association ("TEA"), an organization to which the Company is a member, alleging the fee amounts to be an unconstitutional tax. On March 28, 2008, a State District Court Judge in Travis County, Texas ruled that the new state law violates the First Amendment to the United States Constitution and is therefore invalid. The judge's order enjoined the State from collecting or assessing the tax. The State appealed the Court's ruling. In Texas, when cities or the State give notice of appeal, it supersedes and suspends the judgment, including the injunction. Therefore, the judgment of the District Court cannot be enforced until the appeals are completed. Given the suspension of the judgment, the State gave notice of its right to collect the tax pending the outcome of its appeal but took no affirmative action to enforce that right. On June 5, 2009, the Court of Appeals for the Third District (Austin) affirmed the District Court's judgment that the Sexually Oriented Business ("S.O.B.") Fee violated the First Amendment to the U.S. Constitution but on August 26, 2011, the Texas Supreme Court reversed the judgment of the Court of Appeals, ruling that the SOB Fee does not violate the First Amendment to the U.S. Constitution, and remanded the case to the District Court to determine whether the fee violates the Texas Constitution.

TEA appealed the Texas Supreme Court's decision to the U.S. Supreme Court (regarding the constitutionality of the fee under the First Amendment of the U.S. Constitution), but the U.S. Supreme Court denied the appeal on January 23, 2012. Subsequently, the case was remanded to the District Court for consideration of the remaining issues raised by TEA. On June 28, 2012, the District Court in Travis County held a hearing on TEA's Texas Constitutional claims and on July 9, 2012 entered an order finding that the tax was a constitutional Occupations Tax. The Court denied the remainder of TEA's constitutional claims. TEA appealed the trial court's ruling to the Third Court of Appeals and on May 9, 2014, the Third Court of Appeals issues a ruling adverse to TEA and in favor of the State. TEA filed a petition for review to the Texas Supreme Court on July 17, 2014, and is awaiting a decision by the court.

The Company has not made any payments of these taxes since the first quarter of 2009 and plans not to make any such payments while the case is pending in the courts. However, the Company will continue to accrue and expense the potential tax liability on its financial statements, so any ultimate negative ruling will not have any effect on its consolidated income statement and will only affect the consolidated balance sheet. If the final decision of the courts is ultimately in the Company's favor, as it believes it will be, then the Company will record a one-time gain of the entire amount previously expensed.

Since the inception of the tax, the Company has paid more than \$2 million to the State of Texas under protest for all four quarters of 2008 and the first quarter of 2009, expensing it in the consolidated financial statements (except for two locations in Dallas where the taxes have not been paid, but the Company is accruing and expensing the liability). For all subsequent quarters, as a result of the Third Court's 2009 decision, the Company has accrued the tax, but not paid the State. Accordingly, as of June 30, 2014, the Company has approximately \$15.4 million in accrued liabilities for this tax. Patron tax expense amounted to approximately \$765,000 and \$746,000 for the quarters ended June 30, 2014 and 2013, respectively. The Company's Texas clubs have filed a separate lawsuit against the State in which the Company raises additional challenges to the statute imposing the fee or tax, demanding repayment of the taxes the Company has paid under this statute. The courts have not yet addressed these additional claims. If the Company is successful in the remaining litigation, the amount the Company has paid under protest should be repaid or applied to any future, constitutional admission tax or other Texas state tax liabilities.

The Company's subsidiary that operated the club in Las Vegas has recently been audited by the Department of Taxation of the State of Nevada for sales and other taxes. The audit period was from the date of opening in September 2008 through July 31, 2010. As a result of the audit, the Department of Taxation contends that the Company's Las Vegas subsidiary owes approximately \$2.1 million, including penalties and interest, for Las Vegas Live Entertainment Taxes. The Company does not believe it was subject to the Live Entertainment Tax, but to

avoid further litigation, agreed to settle this contingency during July 2014 for \$775,000. This amount has been accrued as a liability and expensed in settlement of lawsuits and other one-time costs in the accompanying consolidated financial statements as of June 30, 2014.

The Company and subsidiaries RCI Entertainment (New York), Inc. ("RCI NY") and Peregrine Enterprises, Inc. ("Peregrine") have been defendants in a federal court action, pending since March 30, 2009, in the Southern District of New York relating to claims under the Fair Labor Standards Act and New York's wage and hour laws. While Plaintiffs do not specifically allege the amount of monetary relief sought in their Complaint, Plaintiffs have alleged that they are seeking judgment equal to any unpaid wages, liquidated damages, interest, costs and attorneys' fees pursuant to the FLSA and New York Labor Law. The Company, RCI NY and Peregrine deny liability in this matter, are vigorously defending the allegations and have asserted counterclaims and affirmative defenses for offset and unjust enrichment. Discovery is now complete and on September 10, 2013, the court ruled on the parties' motions for summary judgment. The court granted summary judgment in favor of the Plaintiffs on their causes of action for minimum wage and held that entertainers at RCI NY are employees, that Peregrine was an employer of the Plaintiffs and that under federal law, RCI NY's statutory duty to pay minimum wages was not satisfied by the performance fees Plaintiffs' received. The court has not yet ruled on whether performance fees can offset minimum wages under New York state law. The court denied the Plaintiffs' attempt to hold the Company or RCI NY liable as joint employers with Peregrine and the issue of whether the Company and RCI NY are also employers will be determined at a trial. Ultimately, the Company, RCI NY and Peregrine intend to appeal the summary judgment ruling. The Company has moved to decertify the Rule 23 class and the FLSA collective, which motion is presently pending before the court.

As previously reported, the Company and its subsidiaries were insured under a liability policy issued by Indemnity Insurance Corporation, RRG ("IIC") through October 25, 2013. The Company and its subsidiaries changed insurance companies on that date.

On November 7, 2013, the Court of Chancery of the State of Delaware entered a Rehabilitation and Injunction Order ("Rehabilitation Order"), which declared IIC impaired, insolvent and in an unsafe condition and placed IIC under the supervision of the Insurance Commissioner of the State of Delaware ("Commissioner") in her capacity as receiver ("Receiver"). The Rehabilitation Order empowered the Commissioner to rehabilitate IIC through a variety of means, including gathering assets and marshaling those assets as necessary. Further, the order stayed or abated pending lawsuits involving IIC as the insurer until May 6, 2014.

On April 10, 2014, the Court of Chancery of the State of Delaware entered a Liquidation and Injunction Order With Bar Date ("Liquidation Order"), which ordered the liquidation of IIC and terminated all insurance policies or contracts of insurance issued by IIC. The Liquidation Order further ordered that all claims against IIC must be filed with the Receiver before the close of business on January 16, 2015 and that all pending lawsuits involving IIC as the insurer are further stayed or abated until October 7, 2014. As a result, the Company and its subsidiaries no longer have insurance coverage under the liability policy with IIC. Currently, there are multiple civil lawsuits pending or threatened against the Company and its subsidiaries; and other potential lawsuits for incidents that occurred before October 25, 2013 could still be filed. The Company has retained counsel to defend against and evaluate these claims and lawsuits. The Company also plans to file the appropriate claims against IIC with the Receiver by the January 16, 2015 deadline; however, there are no assurances of any recovery from these claims. It is unknown at this time what effect this uncertainty will have on the Company. As previously stated, the Company has obtained general liability coverage from another insurer, effective October 25, 2013, which will cover any claims arising from actions after that date.

Settlement of lawsuits and other one-time costs include a \$2 million settlement with a claimant which was unpaid by our general liability insurance carrier. We will be filing a claim with the insurance company's estate and with the state's insurance fund for this settlement.

12. ASSETS HELD FOR SALE

Assets held for sale represent two items at June 30, 2014: Land and building in Beaumont, Texas and an aircraft. Each of these assets is under contract for sale as of June 30, 2014. These assets are carried at the lower of their carrying value or fair value, less cost to sell.

13. WARRANTS ISSUED

In February 2014, the Company issued warrants to acquire 100,000 shares of Company common shares to a financial adviser. The exercise price of the warrants was \$11.77, the market price of the shares at the time. The warrants were exercisable immediately and expire in two years. The fair value of the warrants, which was entirely charged to expense upon issuance, was estimated to be \$147,683 in accordance with FASB ASC 820, *Fair Value Measurements*, using a Black-Scholes option-pricing model using the following weighted average assumptions:

Upon written request, we make available free of charge our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and all amendments to those reports as soon as reasonably practicable after such material is electronically filed with the SEC under the Securities Exchange Act of 1934, as amended. Information contained in the website shall not be construed as part of this Form 10-Q.

CRITICAL ACCOUNTING POLICIES

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles of the United States of America ("GAAP"). GAAP consists of a set of standards issued by the FASB and other authoritative bodies in the form of FASB Statements, Interpretations, FASB Staff Positions, Emerging Issues Task Force consensuses and American Institute of Certified Public Accountants Statements of Position, among others. The Company has updated references to GAAP in this Form 10-Q to reflect the guidance in the ASC. The preparation of these consolidated financial statements requires our management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On a regular basis, we evaluate these estimates, including investment impairment. These estimates are based on management's historical industry experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Property and Equipment

Property and equipment are stated at cost. Provisions for depreciation and amortization are made using straight-line rates over the estimated useful lives of the related assets and the shorter of useful lives or terms of the applicable leases for leasehold improvements. Buildings have estimated useful lives ranging from 29 to 40 years. Furniture, equipment and leasehold improvements have estimated useful lives between five and 40 years. Expenditures for major renewals and betterments that extend the useful lives are capitalized. Expenditures for normal maintenance and repairs are expensed as incurred. The cost of assets sold or abandoned and the related accumulated depreciation are eliminated from the accounts and any gains or losses are charged or credited in the accompanying consolidated statement of income of the respective period.

Goodwill and Intangible Assets

FASB ASC 350, *Goodwill and Other Intangibles Assets* addresses the accounting for goodwill and other intangible assets. Under FASB ASC 350, goodwill and intangible assets with indefinite lives are no longer amortized, but reviewed on an annual basis for impairment. Definite lived intangible assets are amortized on a straight-line basis over their estimated lives. Fully amortized assets are written-off against accumulated amortization.

Impairment of Long-Lived Assets

In accordance with ASC 205, long-lived assets, such as property, plant, and equipment, and purchased intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposal group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet.

Goodwill and intangible assets that have indefinite useful lives are tested annually for impairment, and are tested for impairment more frequently if events and circumstances indicate that the asset might be impaired in accordance with ASC 350. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value.

For goodwill, the impairment determination is made at the reporting unit level. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation. The residual fair value after this allocation is the implied fair value of the reporting unit goodwill.

None of our reporting units were at risk of failing step one of the impairment test (i.e. that fair value was not substantially in excess of carrying value) in either year.

Fair Value of Financial Instruments

The Company calculates the fair value of its assets and liabilities which qualify as financial instruments and includes this additional information in the notes to consolidated financial statements when the fair value is different than the carrying value of these financial instruments. The estimated fair value of accounts receivable, accounts payable and accrued liabilities approximate their carrying amounts due to the relatively short maturity of these instruments. The carrying value of short and long-term debt also approximates fair value since these instruments bear market rates of interest. None of these instruments are held for trading purposes.

Revenue Recognition

The Company recognizes revenue from the sale of alcoholic beverages, food and merchandise, other revenues and services at the point-of-sale upon receipt of cash, check, or credit card charge.

The Company recognizes Internet revenue from monthly subscriptions to its online entertainment sites when notification of a new or existing subscription and its related fee are received from the third party hosting company or from the credit card company, usually two to three days after the transaction has occurred. The monthly fee is not refundable. The Company recognizes Internet auction revenue when payment is received from the credit card as revenues are not deemed estimable nor collection deemed probable prior to that point.

Revenues from the sale of magazines and advertising content are recognized when the issue is published and shipped. Revenues and external expenses related to the Company's annual Expo convention are recognized upon the completion of the convention in August.

Income Taxes

Deferred income taxes are determined using the liability method in accordance with FASB ASC 740, *Accounting for Income Taxes*. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In addition, a valuation allowance is established to reduce any deferred tax asset for which it is determined that it is more likely than not that some portion of the deferred tax asset will not be realized.

FASB ASC 740 creates a single model to address accounting for uncertainty in tax positions by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FASB ASC 740 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. There are no unrecognized tax benefits to disclose in the notes to the consolidated financial statements.

Put Options

In certain situations, the Company issues restricted common shares as partial consideration for acquisitions of certain businesses or assets. Pursuant to the terms and conditions of the governing acquisition agreements, the holder of such shares has the right, but not the obligation, to put a fixed number of the shares on a monthly basis back to the Company at a fixed price per share. The Company may elect during any given month to either buy the monthly shares or, if management elects not to do so, the holder can sell the monthly shares in the open market, and any deficiency between the amount which the holder receives from the sale of the monthly shares and the value of shares will be paid by the Company. The Company has accounted for these shares in accordance with the guidance established by FASB ASC 480, *Distinguishing Liabilities From Equity*, as a reclassification of the value of the shares from permanent to temporary equity. As the shares become due, the Company transfers the value of the shares back to permanent equity, less any amount paid to the holder. Also see “Derivative Financial Instruments” above. We finished liquidating these put options during the quarter ended March 31, 2013.

Earnings Per Common Share

The Company computes earnings per share in accordance with FASB ASC 260, *Earnings Per Share*. FASB ASC 260 provides for the calculation of basic and diluted earnings per share. Basic earnings per share includes no dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of the Company.

Potential common stock shares consist of shares that may arise from outstanding dilutive common stock options and warrants (the number of which is computed using the “treasury stock method”) and from outstanding convertible debentures (the number of which is computed using the “if converted method”). Diluted EPS considers the potential dilution that could occur if the Company’s outstanding common stock options, warrants and convertible debentures were converted into common stock that then shared in the Company’s earnings (as adjusted for interest expense, that would no longer occur if the debentures were converted).

Stock Options

The compensation cost recognized for the three months ended June 30, 2014 and 2013 was \$2,922 and \$281,745, respectively. There were 269,665 stock options exercised during the quarter ended June 30, 2014, aggregating \$2,281,803. There were no stock options exercises for the three months ended June 30, 2013.

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JUNE 30, 2014 AS COMPARED TO THE THREE MONTHS ENDED JUNE 30, 2013

For the three months ended June 30, 2014, we had consolidated total revenues of \$33.3 million compared to consolidated total revenues of \$28.3 million for the three months ended June 30, 2013, an increase of \$5.0 million or 17.8%. The increase in total revenues was primarily attributable to clubs acquired during the last year with a 5.1% increase in same-store sales. Total revenues for same-location-same-period of club operations increased to \$28.9 million for the three months ended June 30, 2014 from \$27.5 million for the same period ended June 30, 2013, a 5.1% increase. Nearly all of the major brands showed year over year improvement, with the primary exception of the Club Onyx units. New Club Onyx format and management changes, however, have significantly reduced the percentage year over year revenue decline compared to the previous quarter. Excluding these units, same store sales would have been up 6.9%.

Following is a comparison of the Company's income statement for the quarters ended June 30, 2014 and 2013 with percentages compared to total revenue:

Following is an explanation of significant variances in the above amounts.

Service revenues include cover charges, fees paid by entertainers, room rentals, memberships and fees charged for credit card processing. Other revenues include ATM commissions earned, video games and other vending and certain promotion fees charged to our entertainers. We recognize revenue from other revenues and services at the point-of-sale upon receipt of cash, check, or credit card charge.

Cost of goods sold includes cost of alcoholic and non-alcoholic beverages, food, cigars and cigarettes, merchandise, media printing/binding and media postage. The cost of goods sold for the club operations was 12.7% and 13.0% for the three months ended June 30, 2014 and 2013, respectively. The cost of goods sold for same-location-same-period of club operations for the three months ended June 30, 2014 was 12.2%, compared to 12.9% for the same period ended June 30, 2013.

Payroll for same-location-same-period of club operations was \$5.0 million for the three months ended June 30, 2014 and \$5.2 million for the same period in 2013. The decrease is due to adjustments and reduction of payroll in certain locations. Management currently believes that its labor and management staff levels are appropriate.

The increase in the percentage of rent expense to revenues is due to increased rents in both of our New York clubs, our Los Angeles club and our restaurants opening in leased locations.

The increase in legal and professional expense is principally due to a continuing labor lawsuit in New York which was more active in the 2014 quarter and due to general increase in legal fees as a result of our general liability insurance company bankruptcy. Also see Note 11 of Notes to Consolidated Financial Statements for more information regarding our former general liability insurer.

The increase in insurance expense is due to an increase from acquisitions and an increase in premium rates, especially in the general liability area. Also see Note 11 of Notes to Consolidated Financial Statements for more information regarding our former general liability insurer.

Settlement of lawsuits and other one-time costs include a \$2 million settlement with a claimant which was unpaid by our general liability insurance carrier. We will be filing a claim with the insurance company's estate and with the state's insurance fund for this settlement. Also included is \$775,000 to settle a previously-disclosed claim by the state of Nevada for \$2.1 million in Live Entertainment Tax. The Company does not believe it was subject to the Live Entertainment Tax, but to avoid further litigation, agreed to settle this contingency during July 2014. This amount has been accrued as a liability as of June 30, 2014.

Income taxes, as a percentage of income before taxes was 24.4% and 37.3% for the quarters ended June 30, 2014 and 2013, respectively. The decrease in 2014 is principally due to the tax deductions from exercised stock options in 2014.

Operating income (exclusive of corporate overhead) for same-location-same-period of club operations was \$6.8 million for each of the quarters ended June 30, 2014 and 2013. The 2014 period was affected by losses in the period amounting to over \$306,000 as a result of pre-opening costs for the Company's unopened Bombshells compared to only \$185,000 in pre-opening costs for the previous year.

Our "operating margin", the percentage of operating income to total revenues, was 8.7% and 19.3% for the quarters ended June 30, 2014 and 2013, respectively. The decrease is principally due to the one-time costs and preopening costs in 2014.

RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED JUNE 30, 2014 AS COMPARED TO THE NINE MONTHS ENDED JUNE 30, 2013

For the nine months ended June 30, 2014, we had consolidated total revenues of \$95.6 million compared to consolidated total revenues of \$84.2 million for the nine months ended June 30, 2013, an increase of \$11.5 million or 13.6%.

Service revenues include cover charges, fees paid by entertainers, room rentals, memberships and fees charged for credit card processing. Other revenues include ATM commissions earned, video games and other vending and certain promotion fees charged to our entertainers. We recognize revenue from other revenues and services at the point-of-sale upon receipt of cash, check, or credit card charge.

Cost of goods sold includes cost of alcoholic and non-alcoholic beverages, food, cigars and cigarettes, merchandise, media printing/binding, media postage and internet traffic purchases and webmaster payouts. The cost of goods sold for the club operations for the nine months ended June 30, 2014 was 12.5% for each of the nine months ended June 30, 2014 and 2013. The cost of goods sold for same-location-same-period of club operations for the nine months ended June 30, 2014 was 11.6%, compared to 12.1% for the same period ended June 30, 2013.

Payroll for same-location-same-period of club operations was \$13.7 million for the nine months ended June 30, 2014 and \$14.5 million for the same period in 2013. The decrease is due to adjustments and reduction of payroll in certain locations. Management currently believes that its labor and management staff levels are appropriate.

The decrease in stock-based compensation is due to the stock options to employees and Board members in 2012 completely vesting in 2013.

The increase in the percentage of rent expense to revenues is due to increased rents in both of our New York clubs, our Los Angeles club and our opening restaurants in leased locations.

The decrease in legal and professional expense is principally due to a continuing labor lawsuit in New York which was more active in the first six months of the 2013 period.

The increase in insurance expense is due to an increase from acquisitions and an increase in premium rates, especially in the general liability area. Also see Note 11 of Notes to Consolidated Financial Statements for more information regarding our former general liability insurer.

The increase in depreciation is principally due to the new clubs acquired.

Settlement of lawsuits and other one-time costs include a \$2 million settlement with a claimant which was unpaid by our general liability insurance carrier. We will be filing a claim with the insurance company's estate and with the state's insurance fund for this settlement. Also included is \$775,000 to settle a previously-disclosed claim by the state of Nevada for \$2.1 million in Live Entertainment Tax. The Company does not believe it was subject to the Live Entertainment Tax, but to avoid further litigation, agreed to settle this contingency during July 2014. This amount has been accrued as a liability as of June 30, 2014.

Income taxes, as a percentage of income before taxes was 34.2% and 36.9% for the nine months ended June 30, 2014 and 2013, respectively. The lower rate in 2014 is principally due to the tax deductions from exercised stock options in 2014, less the increased stock-based compensation in 2013, which is not deductible for tax purposes.

Operating income (exclusive of corporate overhead) for same-location-same-period of club operations decreased to \$21.1 million for the nine months ended June 30, 2014 from to \$21.8 million for same period ended June 30, 2013, or by 3.1%. The 2014 period was affected by losses in the period amounting to over \$743,000 as a result of pre-opening costs for the Company's unopened Bombshells and Vivid New York compared to only \$393,000 in pre-opening costs for the previous year.

Our "operating margin", the percentage of operating income to total revenues, was 16.7% and 20.8% for the nine months ended June 30, 2014 and 2013, respectively. The decrease is principally due to the one-time costs in 2014.

Non-GAAP Financial Measures

In addition to our financial information presented in accordance with GAAP, management uses certain "non-GAAP financial measures" within the meaning of the SEC Regulation G, to clarify and enhance understanding of past performance and prospects for the future. Generally, a non-GAAP financial measure is a numerical measure of a company's operating performance, financial position or cash flows that excludes or includes amounts that are included in or excluded from the most directly comparable measure calculated and presented in accordance with GAAP. We monitor non-GAAP financial measures because it describes the operating performance of the company and helps management and investors gauge our ability to generate cash flow, excluding some recurring charges that are included in the most directly comparable measures calculated and presented in accordance with GAAP. Relative to each of the non-GAAP financial measures, we further set forth our rationale as follows:

Non-GAAP Operating Income and Non-GAAP Operating Margin. We exclude from non-GAAP operating income and non-GAAP operating margin amortization of intangibles, patron taxes, pre-opening costs, gains and losses from asset sales, stock-based compensation charges, litigation and other one-time legal settlements and acquisition costs. We believe that excluding these items assists investors in evaluating period-over-period changes in our operating income and operating margin without the impact of items that are not a result of our day-to-day business and operations.

Non-GAAP Net Income and Non-GAAP Net Income per Basic Share and per Diluted Share . We exclude from non-GAAP net income and non-GAAP net income per diluted share and per basic share amortization of intangibles, patron taxes, pre-opening costs, income tax expense, impairment charges, gains and losses from asset sales, stock-based compensation, litigation and other one-time legal settlements and acquisition costs, and include the Non-GAAP provision for income taxes, calculated as the tax-effect at 35% effective tax rate of the pre-tax non-GAAP income before taxes less stock-based compensation, because we believe that excluding such measures helps management and investors better understand our operating activities.

Adjusted EBITDA . We exclude from Adjusted EBITDA depreciation expense, amortization of intangibles, income tax, interest expense, interest income, gains and losses from asset sales, acquisition costs, litigation and other one-time legal settlements and impairment charges because we believe that adjusting for such items helps management and investors better understand operating activities. Adjusted EBITDA provides a core operational performance measurement that compares results without the need to adjust for Federal, state and local taxes which have considerable variation between domestic jurisdictions. Also, we exclude interest cost in our calculation of Adjusted EBITDA. The results are, therefore, without consideration of financing alternatives of capital employed. We use Adjusted EBITDA as one guideline to assess our unleveraged performance return on our investments. Adjusted EBITDA is also the target benchmark for our acquisitions of nightclubs.

The following tables present our non-GAAP measures for the periods ended June 30, 2014 and 2013 (in thousands, except per share amounts):

LIQUIDITY AND CAPITAL RESOURCES

We believe our ability to generate cash from operating activities is one of our fundamental financial strengths. Refer to the heading "Cash Flows from Operating Activities" below. The near-term outlook for our business remains strong, and we expect to generate substantial cash flows from operations in 2014. As a result of our expected cash flows from operations, we have significant flexibility to meet our financial commitments. The Company has not recently raised capital through the issuance of equity securities. Instead, we use debt financing to lower our overall cost of capital and increase our return on shareowners' equity. Refer to the heading "Cash Flows from Financing Activities" below. We have a history of borrowing funds in private transactions and from sellers in acquisition transactions and continue to have the ability to borrow funds at reasonable interest rates in that manner. We have historically utilized these cash flows to invest in property and equipment and adult nightclubs. Refer to the heading "Cash Flows from Investing Activities" below.

As of June 30, 2014, excluding the patron tax liability, we had working capital of \$5.2 million compared to working capital of \$4.8 million as of September 30, 2013. As much of this current portion of debt is convertible debt, it is anticipated that it will be redeemed with common shares. Because of the large volume of cash we handle, stringent cash controls have been implemented. At June 30, 2014, our cash and cash equivalents were \$11.1 million compared to \$10.6 million at September 30, 2013.

Our depreciation for the quarter ended June 30, 2014 was \$1.4 million compared to \$1.2 million for the quarter ended June 30, 2013. Our amortization for the quarter ended June 30, 2014 was \$82,000 compared to \$92,000 for the quarter ended June 30, 2013.

Sources and Use of Funds

Cash flows from operating activities are generally the result of net income adjusted for depreciation and amortization expenses, deferred taxes, (increases) decreases in accounts receivable, inventories and prepaid expenses and increases (decreases) in accounts payable and accrued liabilities. See a summary of these activities below.

Cash flows used in investing activities generally reflect payments relating to acquisitions of businesses, property and equipment and marketable securities. See a summary of these activities below.

Cash flows from financing activities generally reflect proceeds from issuance of shares and long-term debt, and payments on debt and put options and purchase of treasury stock. See a summary of these activities below.

Other than the potential loss of the Patron Tax issue with the State of Texas (see Note 11 of Notes to Consolidated Financial Statements) we are not aware of any other event or trend that would potentially affect liquidity. In the event such a trend develops, we believe our working capital and capital expenditure requirements will be adequately met by cash flows from operations. We also believe that, in the event of loss of the Patron Tax issue, the State of Texas would waive any penalties and allow us to pay out any liability over a reasonable amount of time. In our opinion, working capital is not a true indicator of our financial status. Typically, businesses in our industry carry current liabilities in excess of current assets because businesses in our industry receive substantially immediate payment for sales, with nominal receivables, while inventories and other current liabilities normally carry longer payment terms. Vendors and purveyors often remain flexible with payment terms, providing businesses in our industry with opportunities to adjust to short-term business down turns. We consider the primary indicators of financial status to be the long-term trend of revenue growth, the mix of sales revenues, overall cash flow, profitability from operations and the level of long-term debt.

The following table presents a summary of such indicators for the nine months ended June 30:

(in thousands)	2014	Increase (Decrease)	2013
Sales of alcoholic beverages	\$ 38,300	17.7%	\$ 32,554

Share repurchase

On September 29, 2008, our Board of Directors authorized us to repurchase up to \$5 million worth of our common stock in the open market. As of April 2013, we completed the repurchase of all \$5 million in stock authorized under this plan. On April 25, 2013, our Board of Directors authorized us to repurchase up to an additional \$3 million worth of our common stock in the open market or in privately negotiated transactions. During May 2014, our Board of Directors increased the repurchase authorization to \$10 million. During the quarter ended June 30, 2014, we did not purchase any shares of common stock in the open market. Under the Board's authority, we have \$10 million remaining to purchase additional shares as of June 30, 2014.

Other Liquidity and Capital Resources

We have not established lines of credit or financing other than the notes payable and our existing debt. There can be no assurance that we will be able to obtain additional financing on reasonable terms in the future, if at all, should the need arise.

We believe that the adult entertainment industry standard of treating entertainers as independent contractors provides us with safe harbor protection to preclude payroll tax assessment for prior years. We have prepared plans that we believe will protect our profitability in the event that sexually oriented business industry is required in all states to convert dancers who are now independent contractors into employees.

The sexually oriented business industry is highly competitive with respect to price, service and location, as well as the professionalism of the entertainment. Although management believes that we are well-positioned to compete successfully in the future, there can be no assurance that we will be able to maintain our high level of name recognition and prestige within the marketplace.

IMPACT OF INFLATION

We have not experienced a material overall impact from inflation in our operations during the past several years. To the extent permitted by competition, we have managed to recover increased costs through price increases and may continue to do so. However, there can be no assurance that we will be able to do so in the future.

SEASONALITY

Our nightclub operations are affected by seasonal factors. Historically, we have experienced reduced revenues from April through September with the strongest operating results occurring during October through March.

GROWTH STRATEGY

We believe that our nightclub operations can continue to grow organically and through careful entry into markets and demographic segments with high growth potential. Our growth strategy is: (a) to open new clubs after market analysis, (b) to acquire existing clubs in locations that are consistent with our growth and income targets and which appear receptive to the upscale club formula we have developed, (c) to form joint ventures or partnerships to reduce start-up and operating costs, with us contributing equity in the form of our brand name and management expertise, (d) to develop new club concepts that are consistent with our management and marketing skills, (e) to develop and open our sports bar and restaurant concepts as our capital and manpower allow, and/or (f) to control the real estate in connection with club operations, although some clubs may be in leased premises.

During fiscal 2010, we acquired three existing nightclub operations for a total cost of approximately \$9.2 million, including real property of approximately \$4.6 million. These acquisitions were funded primarily with cash of approximately \$5.9 million, real property debt of approximately \$2.5 million, and a seller's common stock which we owned, valued at approximately \$795,000. These nightclub operations had total revenues of approximately \$7.5 million, \$8.6 million and \$7.3 million and net income before taxes of approximately \$1.3 million, \$932,000 and \$609,000 for fiscal years 2013, 2012 and 2011, respectively.

During fiscal 2011, we acquired three existing nightclub operations and opened another for a total cost of approximately \$11.3 million, including real property of approximately \$6.4 million. These acquisitions were funded with cash. These nightclub operations had total revenues of approximately \$6.8 million and \$5.6 million and net income before taxes of approximately \$1.4 million and \$500,000 for the fiscal years 2013 and 2012, respectively.

During fiscal 2012, we acquired eleven existing nightclub operations and two other licensed locations under development for a total cost of approximately \$35.4 million, including real property of approximately \$7.6 million. These acquisitions were funded primarily with cash of approximately \$4.9 million, debt of \$22 million and real property debt of approximately \$9.0 million. These nightclub operations had total revenues of approximately \$18.5 million and \$4.3 million and net income before taxes of approximately \$2.9 million and \$620,000 for fiscal years 2013 and 2012, respectively. These amounts do not include the acquisition of approximately \$10.1 million of real estate relating to the Jaguars acquisition (see Note 9 of Notes to Consolidated Financial Statements) which was closed on October 16, 2012.

During fiscal 2013, in addition to the real estate explained in the previous paragraph, we have acquired an existing licensed location for \$3,000,000 (\$1.5 million in cash and the balance in promissory notes). This location was remodeled and opened in January 2014. We also acquired the remaining 50% of an unopened club for \$863,000 of common stock in May 2013. We also acquired another club for \$300,000 in cash. We previously had acquired the real estate for this location.

In October 2013, the Company purchased 49 percent of a corporation that operates the Dallas club "PT's Platinum" and also acquired the building and personal property. Total cost of the transaction was \$500,000.

We continue to evaluate opportunities to acquire new nightclubs and anticipate acquiring new locations that fit our business model as we have done in the past. The acquisition of additional clubs will require us to obtain additional debt or issuance of our common stock, or both. There can be no assurance that we will be able to obtain additional financing on reasonable terms in the future, if at all, should the need arise. An inability to obtain such additional financing could have an adverse effect on our growth strategy.

In addition to their strong cash flow, the acquisition of the Media Division has enabled us to create new marketing synergies with major industry product suppliers and new national advertising opportunities. It also provides us with additional diversification of our revenue and income streams while remaining within our core competency.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As of June 30, 2014, there were no material changes to the information provided in Item 7A of the Company's Annual Report on Form 10-K for fiscal year ended September 30, 2013.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of the Company's senior management, including the Company's chief executive officer and chief financial officer, the Company conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this quarterly report (the "Evaluation Date"). Based on this evaluation, the Company's chief executive officer and chief financial officer concluded as of the Evaluation Date that the Company's disclosure controls and procedures were effective such that the information relating to the Company, including consolidated subsidiaries, required to be disclosed in the Company's Securities and Exchange Commission ("SEC") reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to the Company's management, including the Company's chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2014 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

See "Legal Matters" under Note 11 of Notes to Consolidated Financial Statements above, which information is incorporated herein by reference.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended September 30, 2013, as such factors could materially affect the Company's business, financial condition or future results. In the three months ended June 30, 2014, there were no material changes to the risk factors disclosed in the Company's 2013 Annual Report on Form 10-K. The risks described in the Annual Report on Form 10-K are not the only risks the Company faces. Additional risks and uncertainties not currently known to the Company, or that the Company deems to be immaterial, also may have a material adverse impact on the Company's business, financial condition or results of operations.

Item 6. Exhibits.
