## RCI Reports 1Q20 Results and Files 10-Q

HOUSTON – February 27, 2020 – RCI Hospitality Holdings, Inc. (Nasdaq: RICK) today reported results for the Fiscal 2020 first quarter ended December 31, 2019 and the filing of its 10-Q.

### 1Q20 vs. 1Q19

- Diluted EPS of \$0.60 compared to \$0.65 (1Q19 benefitted from \$1.1 million in pre-tax gains on the sale of non-income producing assets)
- Diluted non-GAAP\* EPS of \$0.62 compared to \$0.61
- Weighted average shares outstanding fell 391K or 4.0% due to repurchases
- Cash rebounded to \$13.2 million at December 31, 2019 after \$6.4 million in 1Q20 share buybacks
- Free cash flow (FCF) totaled \$9.3 million (based on net cash provided by operating activities of \$10.3 million, less maintenance capital expenditures of \$1.0 million)
- Total revenues of \$48.4 million compared to \$44.0 million on 47 and 46 units, respectively
- Bombshells quarterly revenues hit a record \$10.4M as segment margin rebounded to +15%

### CEO Comment

“Bombshells revenue, margin and profit continued to grow noticeably in 1Q20 from new and older locations, despite pre-opening costs for two new units,” said Eric Langan, President & CEO. “Performance should continue to expand with Bombshells Katy, which opened mid-1Q20; Bombshells 59 in southwest Houston, which opened mid-2Q20; and the remodeling and expansion of our first Bombshells, which opened seven years ago in Dallas.

“Nightclubs maintained their strong contribution as two new locations – Rick’s Cabarets in Chicago and Pittsburgh – made up for two clubs closed part of the quarter for repairs, and one less selling week during the high-volume Thanksgiving and Christmas period. Performance has already begun to pick up appreciably. Scarlett’s Cabaret St. Louis and Rick’s Cabaret Odessa have reopened. We have a great sports calendar in 2Q20 in markets where we have larger clubs, and we continue to look forward to closing on our Northeast Corridor acquisition.

“Salaries and wages and SG&A were higher than what we’d like due to accounting, legal and overtime costs related to our recently filed 10-K, which included the reaudits of FY 2017 and FY 2018 in conjunction with the FY 19 audit. While these costs will continue to be somewhat high in 2Q20, with the 10-K and now the 10-Q filed, we expect them to subside in the second half and help increase operating leverage.

“Nonetheless, we continued to move forward in 1Q20 with our capital allocation strategy. We reduced shares outstanding 4% year over year, buying back 332,671 shares, for \$6.4 million, and still ended the quarter with \$13.2 million of cash compared to \$14.1 million at September 30th. In addition, free cash flow continues at a run rate of approximately \$30 million based on \$34 million in net cash from operating activities less \$4 million of maintenance capital expenditures.

“To increase our financial flexibility, in 1Q20 and 2Q20 we refinanced \$12.2 million of debt, eliminating \$10.8 million of near-term non-realty balloon payments, to avoid any large near-term cash needs. This flexibility will be further enhanced when we close on approximately \$6.7 million in excess properties under contract to sell, and we sell or lease remaining excess properties with approximately \$9 million in market value.”

#### **1Q20 REVIEW** *(All comparisons to 1Q19 unless otherwise noted)*

- **Total Revenues:** Total revenues of \$48.4 million rose \$4.4 million or 9.9%. Growth reflected increases of \$2.4 million (+13.3%) in alcoholic beverages, \$1.8 million (+30.9%) in food, and \$319K (+11.8%) in other. Service revenues declined \$138K (-0.8%). Beverage and food reflected strong sales at Bombshells. Service reflected one less holiday sales week for clubs.
- **Operating Income:** Due to the company’s growth and other factors, operating expenses increased \$5.8 million or 17.7%. Cost of goods increased \$964K or 16.6%, reflecting a higher amount and proportion of beverage and food sales. Salaries and wages and SG&A increased \$3.6 million or 13.9% due to more units open, Bombshells pre-opening costs, and expenses related to RCI’s recently filed 10-K. Other gains, net, declined \$1.1 million from 1Q19, when three non-income producing assets were sold. As a result, GAAP operating income declined \$1.4 million, while non-GAAP operating income fell only \$375K.
- **Nightclubs Segment:** Revenues increased slightly to \$37.9 million, with 38 units compared to 39, as sales of new clubs offset clubs closed for part of the quarter and the shorter holiday selling season. GAAP operating income declined \$1.6 million from 1Q19, which included most of the 1Q19 gains on sales. On a non-GAAP basis, operating income fell only \$440K.
- **Bombshells Segment:** Revenues of \$10.4 million increased 72.1%, with 9 units compared to 7. Revenues from new units totaled \$4.8 million from four Houston area locations—Pearland (opened April 2018), I-10 (December 2018), Tomball (March 2019), and Katy (October 22, 2019), which experienced a record month for a Bombshells in November. Same-store sales increased 19.2%. Units also benefitted from increased traffic as a result of the Houston pro baseball team playing through to the 7th game of the championship. Operating margin expanded to 15.2% compared to 2.0%. Segment profit jumped to \$1.6 million from \$119K.
- **Other Metrics**
  - Occupancy Costs (rent and interest expense as a percentage of total revenues) were 7.3% compared to 8.0%. 1Q19 reflected lower debt at lower average interest rates and increased revenues.
  - Cash and Cash Equivalents totaled \$13.2 million at December 31, 2019 compared to \$14.1 million at September 30, 2019 and \$9.4 million at December 31, 2018.
  - Long-Term Debt of \$141.8 million at December 31, 2019 fell \$1.7 million from September 30, 2019 and \$11.3 million from December 31, 2018, due to scheduled paydowns and loan repayments, partially offset by new debt to fund the Bombshells expansion.
  - Operating lease liabilities: We adopted ASC 842, Leases. This resulted in an increase of \$27.3 million in total assets with the recognition of operating lease right-of-use assets net of the reclassification of deferred rent liability of \$1.2 million, and an increase in total liabilities with the recognition of \$28.6 million operating lease liabilities.
  - Maintenance Capital Expenditures of \$1.0 million increased from \$376K due to remodeling of Bombshells Dallas and upgrading of our two South Florida clubs in advance of the pro football championship in 2Q20.

### \*Non-GAAP Financial Measures

In addition to our financial information presented in accordance with GAAP, management uses certain non-GAAP financial measures, within the meaning of the SEC Regulation G, to clarify and enhance understanding of past performance and prospects for the future. Generally, a non-GAAP financial measure is a numerical measure of a company's operating performance, financial position or cash flows that excludes or includes amounts that are included in or excluded from the most directly comparable measure calculated and presented in accordance with GAAP. We monitor non-GAAP financial measures because it describes the operating performance of the Company and helps management and investors gauge our ability to generate cash flow, excluding (or including) some items that management believes are not representative of the ongoing business operations of the Company, but are included in (or excluded from) the most directly comparable measures calculated and presented in accordance with GAAP. Relative to each of the non-GAAP financial measures, we further set forth our rationale as follows:

- *Non-GAAP Operating Income and Non-GAAP Operating Margin.* We calculate non-GAAP operating income and non-GAAP operating margin by excluding the following items from income from operations and operating margin: (a) amortization of intangibles, (b) gains or losses on sale of businesses and assets, (c) gains or losses on insurance, and (d) settlement of lawsuits. We believe that excluding these items assists investors in evaluating period-over-period changes in our operating income and operating margin without the impact of items that are not a result of our day-to-day business and operations.
- *Non-GAAP Net Income and Non-GAAP Net Income per Diluted Share.* We calculate non-GAAP net income and non-GAAP net income per diluted share by excluding or including certain items to net income attributable to RCIHH common stockholders and diluted earnings per share. Adjustment items are: (a) amortization of intangibles, (b) gains or losses on sale of businesses and assets, (c) gains or losses on insurance, (d) unrealized gains or losses on equity securities, (e) settlement of lawsuits, and (f) the income tax effect of the above described adjustments. Included in the income tax effect of the above adjustments is the net effect of the non-GAAP provision for income taxes, calculated at 21.8% and 22.2% effective tax rate of the pre-tax non-GAAP income before taxes for the quarter ended December 31, 2019 and 2018, respectively, and the GAAP income tax expense (benefit). We believe that excluding and including such items help management and investors better understand our operating activities.
- *Adjusted EBITDA.* We calculate adjusted EBITDA by excluding the following items from net income attributable to RCIHH common stockholders: (a) depreciation and amortization, (b) income tax expense (benefit), (c) net interest expense, (d) gains or losses on sale of businesses and assets, (e) gains or losses on insurance, (f) unrealized gains or losses on equity securities, and (g) settlement of lawsuits. We believe that adjusting for such items helps management and investors better understand our operating activities. Adjusted EBITDA provides a core operational performance measurement that compares results without the need to adjust for federal, state and local taxes which have considerable variation between domestic jurisdictions. The results are, therefore, without consideration of financing alternatives of capital employed. We use adjusted EBITDA as one guideline to assess our unleveraged performance return on our investments. Adjusted EBITDA is also the target benchmark for our acquisitions of nightclubs.
- *Management also uses non-GAAP cash flow measures such as free cash flow.* Free cash flow is derived from net cash provided by operating activities less maintenance capital expenditures. We use free cash flow as the baseline for the implementation of our capital allocation strategy.
